

November 5-9, 2010

Shenzhen, China

Message from President of WEVA & EVAAP

Ladies and Gentlemen, Friends and Colleagues:

As you may aware, EVS is the largest and most influential gathering of everyone who is concerned with battery, hybrid and fuel cell electric vehicles. In a world where environment protection and energy conservation are growing concerns, the development of electric vehicles has become an emerging global issue. The theme of EVS 25 is Sustainable Mobility Revolution. EVS 25 will provide you with a great opportunity to update yourself with the latest progress of electric vehicles around the world and meet your potential business partners in China and elsewhere. You would also explore your business and culture experience in China – a country of old, dynamic and fastest economic growth.

I am honoured and privileged to hearty invite you to EVS 25 on November 5 -9, 2010 in Shenzhen, China. Let us foster our friendship and collaboration.

Professor C.C. Chan

President, World Electric Vehicle Association and Electric Vehicle Association of Asia Pacific.

Chairman. EVS 25 International Steering Committee.

The 25th World Battery, Hybrid and Fuel Cell Electric Vehicle Symposium & Exhibition (EVS25) will be hosted on November 5-9, 2010 in Shenzhen, Guangdong, China.

The World Battery, Hybrid and Fuel Cell Electric Vehicle Symposium and Exhibition, EVS in short, is the major most long-lasting symposium event in the electric vehicle history. EVS is the major event of the World Electric Vehicles Association ([WEVA](#)) which has three regional members, namely Electric Vehicle Association of Asia Pacific ([EVAAP](#)), European Association for Battery, Hybrid and Fuel Cell Electric Vehicles ([AVERE](#)) and Electric Drive **Transportation** Association of Americas ([EDTA](#)). EVS is rotating among Asia Pacific, Americas and Europe hosted by EVAAP, EDTA and AVERE respectively. The 25th Symposium [EVS 25](#) will take place in Shenzhen, China, between 5 and 9 November, 2010.

Today, the EVS series is recognized as the global electric transportation industry's premier and largest forum, showcasing all forms of technologies in the market place and on the drawing boards--from low speed battery electric vehicles to fuel cell electric buses. The event attracts

academic, government and industry leaders from around the world who are interested in exploring and understanding the technical, policy and market challenges to a paradigm shift toward use of electric transportation technologies.

With theme-` Sustainable Mobility Revolution`, EVS25 will be a good platform and gather the leaders from government, industry and scientific & technological circles as well as from all walks of life, well-known entrepreneurs, scholars, professors and engineering staff, to make exchanges & cooperation on latest technical achievements on electric vehicles, EV future developing direction & strategy, government policies, infrastructure construction, EV commercialization and industrialization, and innovation of high-end industry and leading technologies related.

Electric and new energy vehicles are the milestone of 21st century automotive industry development, which have special and profound significance for moderating global energy crisis, optimizing environmental protection and realizing the sustainable development.

The venue of EVS25 is Shenzhen, Chinese special economic zone with strong economic strength, convenient traffic, advantageous conditions of organizing symposium and favorable electric vehicles industrial foundations. And there is good weather in subtropical November. We trust, under the joint efforts, EVS 25 will be a distinguished gathering of latest electric vehicles worldwide at Chinese culture environment. It will play an active role for overcoming global financial crisis and the development of international new energy electric vehicles in the new period.

CALL FOR PAPERS

EVS25 is calling for high-quality research papers from academia and industry across all fields relating to battery, hybrid and fuel cell electric vehicles. EVS25 will offer an excellent platform to encourage networking among scientists, engineers and authority representatives, as well as an occasion to assess the contribution of Battery, Hybrid and Fuel cell electric vehicles towards the reduction of emissions and fuel consumption.

General Topics

Vehicles & Transportation Systems

Rechargeable Energy Storage Systems

Fuel Cells

Propulsion Systems & Subsystems

Infrastructure

Energy & Environment

Demonstration & Market Issues

Public Policy

Global Approach

Others

Important Date:

Deadline for Abstract: January 5, 2010

Notification of Acceptance: March 10, 2010

Deadline for Full Paper: July 15, 2010

For instructions on how to submit a abstract and paper, please visit our website (www.evs25.org) or email to weifeng@evaap.org with any question, suggestions, or requests. We will do our best to accommodate your needs.

REGISTER NOW!

With theme-` Sustainable Mobility Revolution`, EVS25 will be a good platform and gather the leaders from government, industry and scientific & technological circles as well as from all walks of life, well-known entrepreneurs, scholars, professors and engineering staff, to make exchanges & cooperation on latest technical achievements on electric vehicles, EV future developing direction & strategy, government policies, infrastructure construction, EV commercialization and industrialization, and innovation of high-end industry and leading technologies related.

EXHIBITION, EV PARADE & RIDE & DRIVE

With largest exhibition scale in EVS history of 30,000 sq.m., to get your company in front of world electric vehicle industry by exhibiting at EVS25, and meet largest ever number of visitors, including several thousand expected registered participants and tens of thousands of visitors.

A good platform and opportunity to present latest development of battery, hybrid and fuel cell electric vehicles to the public for **EV Parade**, and feel the driving experience of electric vehicles for **Ride & Drive**.

SPONSORSHIP

EVS25 will provide various Packages of Sponsorship, which is a real opportunity to promote your company fame and prestige in EV circle globally, to publicize your activities directed at earth-friendly and sustainable transport to broad spectrum of people, including the general public visit.

For sponsorship packages, please contact: weifeng@evaap.org ; weifengces@yahoo.com.cn.

Looking forward to seeing you in November, 2010 in Shenzhen, China.

Any question or assistance, please feel free to contact us.

Wei Feng, Secretary-general

Electric Vehicle Association of Asia and Pacific

c/o, China Electrotechnical Society
